

Announcement of Wanhua Chemical

Recovery of NPG Devices for Production in Yantai Industrial Park

Board of Directors of the Company and all members hereby guarantee that this announcement contains no false representations, misleading statements or material omissions, and shall assume joint and several liability for the veracity, accuracy, and integrity of the contents hereof.

In accordance with Temp. No.2017-59 Announcement of Wanhua Chemical on Overhaul of Yantai Industrial Park, the NPG devices for Yantai Industrial Park (40,000 tons/year), being affected by utilities and replacement of catalysts, will stop running on August 15, 2017.

Up to now, the above-mentioned NPG devices have been recovered to normal production.

It is hereby notified the above.

Wanhua Chemical Group Co., Ltd.
