COMPANY STRENGTH
WANHUA BEIJING—THE MOST RELIABLE PU SOLUTION PROVIDER

Customer Orientation—
Providing personalized service

Wanhua Beijing has formed a customer-focused service network with sales for the forward, research and production for the backup force. Each link fits closely to provide convenient and excellent service to customers. With the strength of Wanhua Chemical, we guarantee the supply stability and customer's continuous production. With Nanjing, Ningbo, Zhuhai, and the Chengdu in preparation—four major production bases, we are establishing the country-wide production network to offer more efficient logistics service and lower transportation costs. And our professional technical team is always committed to providing high value-added technical service and comprehensive solutions.

Independent Innovation—
Persisting in breakthroughs

Wanhua Beijing, the largest domestic PU R&D base and the leader in the field of China’s PU application, owns two technology platforms for flexible foam and CASE research and one national accredited laboratory, and the number of the professionals is more than half of the total. Powered by innovation, we insist in independent R&D and creating core intellectual property rights. We were accredited by CNAS, and awarded as the Beijing Science and Technology Research and Development Institution and many other honors and awards.

Eminent Culture—
Creating the best team

The eminent culture from decades of operation has taken a deep root in every people of Wanhua, and created the best team with synergistic, dynamic and diverse workforce. Adhering to the core value and mission of Wanhua, we committed to becoming a world-class innovative chemical company with deep pride in our people and to gain respect from society.

Excellent Quality—
Ensuring products quality

Wanhua Beijing has established a complete quality management system and whole process quality assurance system. Quality control is covered through the world-class industrial park, efficient operation center, reliable production and testing equipment and complete quality control system (GB/T19001—2008, GB/T24001—2004, OHSAS 18001:2007 and GB/T28001—2001). We are always striving for perfection and pursuing the customer satisfaction.

Safety and Environmental Protection—
Carrying out responsible care

Wanhua Beijing persists in safety, health, environmental protection and sustainable development. We are always following the international standard. Adopting advanced methods from multinational companies and based on our comprehensive management system and national safety standardization management platform, we established our HSE management system: zero injury, zero accident and zero emission to build a green and modern enterprise. And we take it as our duty to develop low carbon economy to return society in grateful heart.
