Lacper® 4700

Acrylic copolymer emulsion

Technical Data Sheet

Name: Lacper®4700
Revision Date: 2017-12-26

Product Description

Lacper® 4700 is an OH-functional acrylic copolymer emulsion. It’s designed for 2K wood coating combined with polyisocyanate hardener with fast drying, good sandability, hardness and chemical resistance. Biocide: CMIT/MIT 3:1 10ppm, and MIT 200ppm.

Properties

1. Chemical resistance
2. Fast drying
3. Sandability
4. Hardness

Storage

The product should be stored in dry conditions above 5°C and below 35°C with the integrity of the packaging, and prevent direct sunlight. The validity of this product is for 12 months, performance assessment is recommended before use after more than 12 months. The product should be protected from freezing during storage. After opening the packing, suggested to use up one time.
Lacper® 4700

Well filtration before using is necessary as normal water based binder.

Disclaimer: Wanhua Chemical Group Co., LTD. recommends that any customers of this material should check with Materials Safety Data Sheet (MSDS) for details about safely handling this material. We also suggest that you contact the suppliers of any other materials used in our recommended formulations and suggestions for appropriate health and safety regulations prior to use.
