Section 1: PRODUCT AND COMPANY IDENTIFICATION

**Product Name**: Carfil® ST11  
**Company Name**: Wanhua Chemical Group Co., LTD  
**Address 1**: No.17, Tianshan Rd, YEDA, Yantai, China  
  - **Telephone**: 0086-535-3388160  
  - **Fax**: 0086-535-6875138  
**Address 2**: No.39, Huandao Road (North), Daxie Development Zone, Ningbo, P.R.China  
  - **Telephone**: 0086-574-86716680  
  - **Fax**: 0086-574-86716679  
**Address 3**: Shihua Road (six), Gaolangang Development Zone, Zhuhai, P.R. China  
  - **Telephone**: 0086-756-7232119  
**Emergencies Telephone**:  
  - WANHUA +86 535-8203123  
  - China +86 532-83889090  
  - EU+31 20 20 65132/65130, +44 780 183 7343  
  - NA800-424-9300, +1-703-527-3887  
**Recommended uses**:  
  - Personal care ingredients.

Section 2: HAZARDS IDENTIFICATION

**Classification of the substance or mixture**  
**Label elements**  
**Hazard Statements**: No obvious known reaction or serious danger.  
**Precautionary Statements**  
**Prevention**:  
- Wear necessary protective equipment (gloves, safety glasses, overalls, etc.).  
- Use only outdoors or in a well-ventilated area.  
- Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace.  
- Do not eat, drink or smoke, in the workplace.  
**Response**:  
- **IF ON SKIN**: Take off contaminated clothing and wash before reuse. Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.  
- **IF IN EYES**: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/
attention. Wash hands after handling.
IF INHALED: Remove to fresh air and keep at rest in a position comfortable for breathing. If breathing is difficult, call a doctor/physician.

Storage:
Store in the dark, a cool and dry place, storage temperature should be kept in 5-35°C, avoid frost, maintain product packaging integrity. Seal immediately after every usage. Use up all the product as soon as possible after opening the package.

Disposal:
Empty barrels used up shall not be stored food and other goods, before without free-pollution disposal. Prevent to cause harm to human body and environment. Dispose of contents and container in accordance with all local, regional, national and international regulations.

Environment hazards: certain pollution to water and soil.

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Section 4: FIRST AID MEASURES

Description of first aid measures
General advice: Take off all contaminated clothing immediately.
If inhaled: In case of irritation of the respiratory tract seek medical advice.
In case of skin contact: Wash off immediately with soap and plenty of water. Consult a doctor in the event of a skin reaction.
In case of eye contact: Hold the eyes open and rinse with preferably lukewarm water for a sufficiently long period of time (at least 20 minutes). Contact an ophthalmologist.
If swallowed: DO NOT induce the patient to vomit, medical advice is required.

Most important symptoms and effects, both acute and delayed
Notes to physician: No information available.

Indication of any immediate medical attention and special treatment needed
Therapeutic measures: No information available.

Section 5: FIRE-FIGHTING MEASURES

Extinguishing media
Suitable extinguishing media: Carbon dioxide (CO₂), Foam, Extinguishing powder, Water spray jet
Unsuitable extinguishing media: High volume water jet

**Special hazards arising from the substance or mixture**

Burning releases carbon monoxide, carbon dioxide, oxides of nitrogen and traces of hydrogen cyanide. In the event of fire and/or explosion do not breathe fumes.

**Advice for fire-fighters**

Firemen must wear self-contained breathing apparatus.

Do not allow contaminated extinguishing water to enter the soil, ground-water or surface waters.

---

**Section 6: ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures**

Personal precautions Use personal protection equipment. Keep unauthorized persons away.

**Environmental precautions**

Do not empty into drains.

**Methods and material for containment and cleaning up**

Methods for cleaning up: Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Treat the recovered material as prescribed in the section on waste disposal.

**Reference to other sections**

Reference to other sections Safe handling: see section 7

Personal protection equipment: see section 8

Disposal: see section 13

---

**Section 7: HANDLING AND STORAGE**

**Control parameters**

The product does not contain any relevant quantities of materials with critical values that have to be mentioned at the workplace.

**Handling**

The precautions required in the handling of solvents must be taken. Ensure adequate ventilation and, if necessary, exhaust ventilation when handling or transferring the product. Explosion protection required.

**Storage**

The product will keep stable for 9 months when stored in its sealed original packaging at temperatures between 5°C and 35°C. Storage at temperatures below 5°C will make the product frozen and cause irreversible damage. The product should therefore be protected from freezing during storage. Temperatures higher than 35°C should be avoided in order to prevent the evaporation of water, which will result in the formation of a non-redispersible polymer film.

---

**Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION**

**Exposure controls**

**Respiratory protection**: Respiratory equipment required during spraying.
**Hand protection:** Suitable materials for safety gloves. Butyl rubber – IIR; thickness >=0.5mm; breakthrough time >=480min.
**Recommendation:** contaminated gloves should be disposed of.
**Eye protection:** Wear eye / face protection.
**Body protection:** Wear suitable protective clothing.

---

### Section 9: PHYSICAL AND CHEMICAL PROPERTIES

**Information on basic physical and chemical properties**

---

**Other information**

The indicated values do not necessarily correspond to the product specification. Please refer to the technical information sheet for specification data.

---

### Section 10: CHEMICAL STABILITY AND REACTIVITY INFORMATION

**Reactivity**

This information is not available.

**Chemical stability**

Revision Date: 2018-12-06  
Version: 3.0
At a constant high temperature, dry solid content will undergo decomposition.

**Possibility of hazardous reactions**
This information is not available.

**Conditions to avoid**
This information is not available.

**Incompatible materials**
This information is not available.

**Hazardous decomposition products**
Formation of combustible and noxious fumes during thermal decomposition

---

**Section 11: TOXICOLOGICAL INFORMATION**

Toxicological studies on the product are not yet available.

---

**Section 12: ECOLOGICAL INFORMATION**

Ecotoxicological studies of the product are not available.
Do not allow to escape into waterways, wastewater or soil.

---

**Section 13: DISPOSAL CONSIDERATIONS**

Dispose in accordance with applicable international, national and local laws, ordinances and statutes

**Waste treatment methods**
After containers have been emptied as thoroughly as possible (e.g. by pouring, scraping or draining until “drip-dry”), they can be sent to an appropriate collection point set up within the framework of the existing take-back scheme of the chemical industry. Containers must be recycled in compliance with national legislation and environmental regulations.
None disposal into waste water.

---

**Section 14: TRANSPORT INFORMATION**

**ADR/RID**
UN number : Not dangerous goods
UN proper shipping name : Not dangerous goods
Transport hazard class : Not dangerous goods
Packing group : Not dangerous goods
Environment hazards : Not dangerous goods

**ADN**

**Special precautions for user**

See section 6-8.

**Additional information**

Not dangerous cargo.

Avoid heat above 35°C or lower than 5°C, stay away from food, acids and bases. According to the latest version of IATA DGR, this product is not dangerous.

---

**Section 15: REGULATORY INFORMATION**

The product is classified and labeled according to Regulation (EC) No. 1272/2008 (GHS/CLP).

Safety, health and environmental regulation/legislation specific for the substance or mixture Directive 2012/18/EU on the control of major-accident hazards involving dangerous substances.

Not applicable

---

**Section 16: OTHER INFORMATION**

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
